

## **Mahesh Girdhar Appointed as MD, CEO of EverEnviro Resource Management**

**Gurugram, India, August 1, 2023:** EverEnviro Resource Management Pvt Ltd, India's leading environmental and sustainable solutions company, is pleased to announce the appointment of Mr. Mahesh Girdhar as its new Managing Director (MD) and Chief Executive Officer (CEO), effective immediately. Mr. Girdhar succeeds Mr. Parvez Umrigar, who retired on July 31<sup>st</sup>, 2023.

With an impressive background in the industry, Mr. Girdhar brings over two decades of global experience in business operation, strategy, and general management. Prior to joining EverEnviro, he held the position of President, Crop Nutrition Business at Deepak Fertilisers & Petrochemicals. Throughout his career, Mr. Girdhar has held key positions in renowned organizations such as Bayer CropScience and Monsanto, where he focused on asset strategy and operations in seed, crop protection and fertilizer businesses.

Mr. Girdhar holds a Postgraduate Degree in Agriculture from Haryana Agricultural University, Hisar, and attended Advanced Management Programme at INSEAD, France. His diverse expertise spans across agri inputs and agriculture value chains across various geographies, including global, Asia Pacific, and India.

EverEnviro, established by Eversource Capital in 2019, offers comprehensive environmental solutions, including the management of urban municipal waste (MSW), agro waste, hazardous and industrial waste. The company is committed to implementing the latest waste management technologies to enhance efficiency and sustainability. Under Mr. Girdhar's leadership, EverEnviro aims to expand its business line, catering to the end-to-end sustainable materials management needs of a wide range of stakeholders.

At present, EverEnviro's primary focus is on Renewable Natural Gas (RNG/CBG) based on agro waste (industrial agro and solid agro), Municipal Solid Waste (MSW) space with plans to develop projects in areas such as Waste to Energy, Bio-CNG, Dry Waste Processing. The company produces nutrient-rich organic manure through biowaste processing that offers excellent biofertilizers for farming. The Construction & Demolition projects mainly focus on processing various materials reclaimed from construction, resulting in the production of recycled value-added products such as CC Blocks, CC Bricks Pavers, Tiles, and Kerb Stones, among others.

Expressing his enthusiasm about his new role, Mr. Girdhar stated, "I am thrilled to join EverEnviro at this critical juncture of the company's stirring trajectory to drive more businesses, using technology in creating assets that could solve environmental and sustainability challenges, paving a way to a circular economy and regenerative agriculture practices. With optimism that waste to wealth will generate more business opportunities, I look forward to our future growth with EverEnviro's excellent team."

With Mr. Girdhar's extensive experience and visionary leadership, EverEnviro is poised for continued success as it expands its footprint across India and spearheads sustainable environmental initiatives.

### **About EverEnviro Resource Management Pvt Ltd:**
